Mr and Mrs Larson's 20th Wedding Anniversary.

Neighbors and friends gathered at the home of Mr and Mrs L. M. Larson on Monday evening to celebrate with them their twentieth Wedding Anniversary. The gathering was a complete surprise to Mr and Mrs Larson who were unprepared for so many visitors, but their callers were

Tables and cards were quickly arranged and court whist with eleven tables going was in order until midnight. Miss C Miller won the Ladies' head prize, Mrs J Whelan was second. Mr J F Clarke was the lucky gent for first prize and Mr W M Washburn took

the gents' consolation prize.

A grand march was then formed, with the bride and groom of twenty years ago leading. They were directed to a room where a table loaded with anniversary gifts awaited them. Mr Tom Scott in a few well-chosen words made the presentation to Mr and Mrs Larson on behalf of the guests present. Mr and Mrs Larson responded gracefully, thanking all the neighbors and friends for their gifts and good wishes. A dainty lunch was then served by the young ladies of the neighborhood which was enjoyed greatly by all. There were about eighty present.

LOCAL NEWS.

Don't forget to see Hardwick's Toy display.

Mr Heeb Ingram has secured the position of grain buyer for the Gillespie Co at Opal and left for his new location on Tuesday.

Mr L E Wood of the Crown Life Insurance Co Edmontan, was a business visit in Stony last week.

Miss Maile Blacken spent the week-end at her home in the city.

Mr Weidman of Ledue is visiting this week with Mr and Mrs Guy Gifford here.

Mr Fred Goebel returned home from Styal on Monday with a big mouse as souvenir.

Mr T J Hardwick was a business visitor to the city on Tuesday.

Tomorrow night Bob Ray's Edmontan Orchestra holds a big dance at Schwind's Hall, Spruce Grove.

Eric Heichen and his gang are busy having water this week for the skating rink and by present indications it is probable that the ice will be ready for the skaters the beginning of next week.

If you want a good saddle horse call at the local police detachment.

The firm of Wells & Richards, Barristers and Solicitors of Edmontan has been dissolved and Mr Wells will discontinue his weekly Thursday visit to Stony for a time.

The Girls Club is holding another one of their good dances in Ducholke's hall on Friday, Dec 18.

The L A Bazaar on Saturday last in the Town hall proved to be a big success, the many fine articles for sale finding ready buyers.

An auction sale will be held at the farm of Dan Miller, Blueberry, on Tuesday Dec 8.

The Big Game License forms have arrived. Those having the temporary license are requested to call in at the Sun Office and receive theirs.

Trains No 1 and 2 the early morning going east at 5:43 a.m. and the midnight going west at 12:17 now stop at Stony on being flagged.

A Whist Drive and Bazaar will be held at the Holborn Hall on Friday, Dec 4, by the U F W A.

XMAS CONCERT

Experimenters In Saskatchewan Are Carrying On Good Work Testing New Varieties Of Seed

Experimenters In Saskatchewan Are Carrying On Good Work

Approximately 500 rural research workers, and experimenters are co-operating with the College of Agriculture, Saskatoon, in an effort to improve agricultural conditions by testing out new varieties of crops and new methods of production.

This co-operative effort, consolidated in the Saskatchewan Field Husbandry Association, has two main lines of effort—to increase the supply of the best seed available and to introduce new crops of different varieties and new methods of producing crops.

"Hundreds of experiments are tried each year by our members," says Professor Manley Champlin. "As a rule no member tries more than two experiments in a year, but a few enthusiasts are trying as many as six."

"A group of about 50 members are trying out the idea of growing grain rows in the hope of finding satisfactory inter-cultured crops which are quite necessary in the development of suitable crop rotations."

"A smaller number are trying winter rye and oats as a temporary pasture crop, spring down and still another group is trying flax and wheat as a combination crop."

"This year over 1,000 members are trying three varieties of corn—Alla Yellow Dent, Northwestern Red Dent and Dakota White Flint."

"About 40 members in East Central Saskatchewan are trying timothy for seed production, the seed having been furnished two years ago by the department of agriculture."

"Approximately 300 members are trying university seeds of leading varieties in direct comparison with any seed of the same crop which they are growing under like conditions on their own farms."

While not claiming that the association is responsible for the remarkable advances made in crop production in Saskatchewan, Professor Champlin points out that the province has climbed into front rank as a producer of registered seeds, the acreage increasing from 4,000 to approximately 24,000, while the corn acreage has grown from 16,000 to nearly 100,000 in five years.

France Loses Part Of Reparations

Bees Demanded As Payment From Germany—Are Total Loss

France has been stung by insisting that bees be delivered her as part of her reparations. The German bees were working hard and living contented lives on the Rhineberger health. The climate was right and the flowers delicious in this North German garden. But France insisted that 30,000 colonies be transported to France in lieu of those destroyed by the German armies. Though the protest at being transported caused loud buzzing, the transfer was made. After first inspection of their new homes the workers struck, and then declared a hunger strike. The queens refused to lay the required eggs and now France has only 20,000 empty hives and Germany a receipt for this portion of her reparations bill.

Gold Refined At Royal Mint

Gold Mining Companies of Ontario to Have Metal Refined at Ottawa

Arrangements have been made by the Ontario Mining Association on behalf of the gold mining companies of Ontario for the metal to be refined in the Ottawa branch of the Royal Mint. Returns will be received for this gold in Canadian funds. Since all the machinery and organization necessary for the refining of gold bullion there involves the use of facilities that have hitherto not been developed to the full extent, there will be no extra expense involved in this work.

Prison Camp Atrocities

Atrocities in treatment of convicts in Georgia prison camps have been discovered. Men are placed in shallow boxes with hands and feet bound and faces smeared with molasses to attract the flies; others are punished by being suspended for hours by their fingers.

W. N. U. 3606

Saskatchewan Lignite

Successfully Brigueuted On Commercial Scale at Plant in Germany

Saskatchewan lignite has been successfully briquetted on a commercial scale in large German plants.

This is the substance of official reports on the briquetting tests conducted in Germany last summer with lignite from the lignite coal fields in Southeast Saskatchewan. Hon. J. G. Gardiner, minister of labor and industries, has announced.

"It is understood the tests have been successful," added Mr. Gardiner, "but any further action regarding the disposal of the Briquet plant will have to await further information which is expected to come to hand soon."

Professor W. D. Worcester, of the University of Saskatchewan, watched the tests in Germany on behalf of the lignite utilization board. Over 60 tons of lignite were tested by the Thyssen Company at Mülheim-Ruhr and the Lurgi Company at Frankfurt.

Sugar Beet Production

Big Impetus Was Given to Industry This Year

Sugar beet production in Canada in 1924 was nearly 100 per cent greater than that of 1923, while the value of the refined beet root sugar showed a corresponding increase. According to a report of the bureau of statistics, 23,111 acres were planted to sugar beets in 1924, which yielded 255,177 tons of beets, from which \$5,770,709 pounds of sugar was refined with a value of \$6,192,645. This compared with 17,941 acres, yield of 169,500 tons, \$9,425,160 pounds of sugar refined and a value of \$9,745,200, in the preceding year.

Canadian Horses For Scotland

Developing Good Market For Draft Horses of the Better Class

Canada is developing a splendid market in Scotland for draft horses of the better class, according to word received from the Canadian trade commissioner in Glasgow. Twenty horses were recently dispatched from Beaufort, Ont., to Glasgow, and another batch of twenty Percherons were later sent forward to the same Scotch importing firm. Further shipments will consist of Clydesdales for carrier firms.

Canadian Foxes In Switzerland

Large Shipment Was Forwarded Recently From New Brunswick

About one hundred thousand dollars worth of black fox puppies left Montreal lately on the Canadian Pacific liner Mailla for Antwerp. From there they travel across France to Switzerland, where they will form the nucleus of a fox breeding establishment. These foxes were purchased in New Brunswick, from which province a number of similar shipments have been made to the other side in the past year or two.

Canadian Oysters

Now Being Sent Across Atlantic to Re-stock Oyster Beds of Europe

Canadian oysters are now being used to re-stock the oyster beds of Europe. The wave of popularity that has swept the Malpeque oysters on to the tables of the epicures of the old countries has resulted in a determined attempt to induce their breeding in the oyster beds of France and England. Two shipments have already been dispatched to England and France, and further consignments are expected shortly.

Establish Butter Record

A record has been established in the shipment of creamy butter from Saskatchewan to Great Britain during the present year, according to a report of the provincial dairy commissioner. In the first nine months of 1925, 8,572,068 pounds of creamy butter manufactured in the province was graded for export under the Canadian federal regulations.

There are more than 10,000 electrical displays in New York City.

Denmark Buys Live Poultry From Canada

Record-of-Performance Hens Becoming Popular in Foreign Countries

A shipment of ten record-of-performance hens and three approved record-of-performance cockerels is to be made shortly to Denmark by the Record-of-Performance Poultry Breeders' Association of British Columbia, for a price approximately \$400, as one of the results of preliminary work here done for the sale of Canadian poultry breeding stock in foreign countries.

The hens to be supplied in the order are to have records of not less than 250 eggs, while the three males are from three hundred egg dams. The British Columbia Association, which has secured the order, is comprised of record-of-performance breeders in that province who have organized themselves into an association for sales purposes. Birds have been shipped from Canada recently to Buenos Aires in different parts of the globe and the Danish order represents still another forward step in the popularizing of high breed Canadian record birds.

Graphite is found in nearly all the provinces of Canada, and even in Halifax Island. The Black Donald mine, near Calabogie, Ontario is the largest and richest deposit of lake graphite known in America.

Sheep Industry Offers Great Possibilities For Development On The Western Plains

Garnet Wheat For Seed

Ottawa Experimental Farm Has Been Conducting Successful Tests

According to an Ottawa dispatch to a Winnipeg paper the wheat production on the western prairies promises to receive a new impetus as the result of experiments carried on in the production of Garnet wheat at the Ottawa experimental farm. Unless the final tests show weakness not hitherto discovered, Garnet wheat is to be made available for seed purposes next spring.

Garnet wheat, which L. H. Newman, Dominion cerealist, has been experimenting with for several years, cuts the growing season down to 100 days, while the period between the sowing and the reaping of Marquis is 110 days.

Experiments carried on in several districts of Western Canada during the past season have proved very successful. Garnet is not rust resistant, but its ability to ripen earlier is a tremendous asset in this connection. It also is said to be of excellent quality for milling purposes.

For some time the various governments of Canada and influential livestock organizations have been endeavoring to develop the sheep raising industry of Canada, both by stimulating interest in the industry among the agriculturalists of Canada, and by bringing to the attention of prospective settlers elsewhere the opportunities existing for such development in the Dominion. It has been claimed, on good authority, that sheep raising holds better prospects at the present time than possibly any branch of agriculture.

One province at least would seem to have benefited materially by this counsel, and the sheep industry of Alberta is reported as being in a very fine condition. An increasing number of Alberta farmers are adding sheep to their activities, and the Alberta wool clip, it is anticipated, will show a great improvement within the next few years. Some 700 Rambouillet rams were imported last fall from the United States and a large number of Rambouillet ewes (including one band of 1,200 head). According to customs officials, some 14,600 head of sheep were brought into Alberta from Montana and other states during the ninety day duty-free period. According to the spring estimate of the Canadian Co-operative Wool Growers there were at least 375,000 head of sheep to be shorn in Southern Alberta, with an average of six pounds per fleece, meaning a yield of approximately 1,000,000 pounds of range type wool.

The secretary of the Canadian Wool Manufacturers' Association, writing recently, said: "Wool and mutton growing in Canada have proportionally greater possibilities for development than any other farm products, while such a development would be of tremendous benefit to agriculturalists and the nation as a whole. It is just beginning to be realized that Canada has all the characteristics for a great sheep country, but that her opportunities have been neglected. The climate is favorable, the physical properties are suitable, the droughts and diseases which decimate flocks in other countries are absent, and world conditions are right for expansion in Canada."

Col. Robert McEwen, president of the Canadian Co-operative Wool Growers, and a consistent winner of international honors for his sheep, has to say: "Taking Canada as a whole it has been proved that climatic conditions are favorable for sheep raising. No devastating disease has visited our flocks. Yet today we find ourselves up against the serious economic problem of consuming more wool than we are producing, and for it comparatively new and fertile agricultural country like Canada to have reached the stage of deficient supply of raw material for such an essential as clothing should surely demand the serious consideration of us all."

Wolves Plentiful In Northern Ontario

Have Become So Numerous That They Are Menace to Deer and Other Wild Life

Reports from hunters who have returned from North Ontario and Quebec hunting grounds in the last few days say that wolves and foxes have united in a drive on bird and game life that has reached a very serious stage.

Never were wolves and foxes so plentiful as now, the hunters say. It is not an uncommon thing this year to see specimens of both quite near, which is most unusual. Tracks of the animals are seen frequently, and dead and half-eaten bucks show that the menace to the deer is real. Deer are plentiful, but hard to get and not in good condition for eating where wolves are after them. Hunters agree that the remarkable scarcity of partridge is due to the fox. Some hunters assert that in places where partridge were plentiful in former years, they did not even see one this year.

Missionary Swallows Parasites

"Thirteen specimens" of a parasite that has caused a great death toll in China, were swallowed by Dr. C. H. Bartley, a medical missionary, in order that he might bring them to John Hopkins for study.

WINNING TEAMS IN C. P. R. COMPETITION

Grace Ewen, Kenton, Manitoba

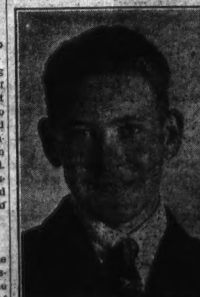

Mamie Cormack, Kenton, Manitoba

Fred Argue, Rouleau, Saskatchewan

Lorne Joynt, Rouleau, Saskatchewan

Vern Johnson, Grande Prairie District, Alta.

Oscar Gudlaugson, Grande Prairie District, Alta.

A great deal of interest was taken in the recent competition offered by the Canadian Pacific Railway Company to boys' and girls' service clubs. The company offered to these clubs a silver trophy and medals, and in addition a free trip to the Toronto Royal Agricultural Winter Fair each year. Shown above are photos of the winning teams for Manitoba, Saskatchewan and Alberta.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog. Is an Adaptation of This Story

SYNOPSIS

Barre, the wolf-dog, attracted from the cabin of Pierrot, the trapper, by the call of the wolves and Mahneum, the young she-wolf who was on the same quest, at length overtook the pack. A gray wolf advanced to Mahneum and she snarled at him. Barre sought to protect her, whereupon a horde of the beasts attacked him and he barely escaped with his life. Badly wounded, and dazed, because he had been cut out by his own kind—he was half-wolf—he fled and again wandered alone through the woods.

CHAPTER XVIII.—Continued.

He did not hear, a few minutes later the howling of the disappointed wolf-herd on the other side of the river, and he no longer sensed the existence of moon or stars. Half dead, he dragged himself on until by chance he came to a clump of dwarf spruce. Into this he struggled, and then dropped exhausted.

All that night and until noon the next day Barre lay without moving. The fever burned in his blood; it flamed high and swift toward death; then it ebbed slowly, and life conquered. At noon he came forth. He was weak, and he wobbled on his legs. His hind legs still dragged, and he was racked with pain.

A red ferocity glared in Barre's eyes as he snarled in the direction of last night's fight with the wolves. They were no longer his people. They were no longer of his blood. Never again could the hunt lure him or the voice of the pack rouse the old longing. In him there was a thing new-born, an undying hatred for the wolf, a hatred that was to grow in him until it became like a disease in his veins, a thing ever present and insatiable, demanding vengeance on their kind.

CHAPTER XIX.

At the cabin on the Gray Loon, on the fourth night of Barre's absence, Pierrot was smoking his pipe after a great supper of caribou tenderloin he had brought in from the trail, and Nepeese was listening to his tale of the remarkable shot he had made, when a sound at the door interrupted them. Nepeese opened it, and Barre came in. The cry of welcome that was on the girl's lips died there instantly, and Pierrot stared as if he could not quite believe this creature that had returned was the wolf-dog. Three days and nights of hunger in which he could not hunt because of the leg that dragged had put on him the marks of starvation. Battle-scarred and covered with dried blood-stains that still clung tenaciously to his long hair, he had a slight that drew at last a long breath from Nepeese. A queer smile was growing in Pierrot's face as he leaned forward in his chair; and then slowly rising to his feet, and looking closer, he said to Nepeese:

"Ventre Saint Grail! Out, he has been to the pack, Nepeese, and the

Alberta Oil Wells
About 80,000 Square Miles in Province That Have Petroleum Possibilities
There are approximately 80,000 square miles in Alberta that have petroleum possibilities, according to a reported statement made by Dr. Allan of the University of Alberta. Development work included 36 wells drilled to 1925, about 16 wells completed and at August, 1925, 15 wells were drilled. Oil production from this territory, 1915, to 1924, was 69,000 barrels.

SPOHN'S
DISTEMPER COMPOUND
Keep your horses working with SPOHN'S Standard Compound. It is the best for Distemper, Colic, Coughs, Influenza, Glanders, and all other ailments of the horse. It is a sure cure for all these troubles. It is a sure cure for all these troubles. It is a sure cure for all these troubles.

Proves Honesty Of Public
Renting Motor Cars Is New Industry In Chicago
Inherent honesty of its customers, the public, is one of the cardinal assets that is permitting a new national industry to grow by leaps and bounds—the drive-voyeur taxi.

Mothers Treat Colds
The New "Direct" Way
No Longer Necessary to "Dose" Children With Unpleasant Remedies to Break Colds.
Children's digestions are easily upset by too much dosing. Vicks VapoRub being exhaled from the nostrils, does not upset the stomach.

pack turned on him. It was not a wolf fight—no! It was the pack. He is cut and torn in fifty places. And—mon Dieu, he is alive!"
In Pierrot's voice there was growing wonder and amazement. He was incredulous, and yet he could not disbelieve what his eyes told him. What had happened was nothing short of a miracle, and for a time he uttered not a word more but remained staring in silence while Nepeese-woke from her astonishment to give Barre doctored and food. After he had eaten ravenously of cold boiled mutton he began bathing his wounds in warm water, and after that she soothed them with bear-grease, talking to him all the time in her soft Cree.

"To Nepeese and Barre it was a wild and joyous adventure that never for a day grew tiresome."

In a week or two the heavier snows came, and Pierrot began making his trips over the traplines. Nepeese had entered into a brilliant bargain with him this winter. Pierrot had taken her into partnership. Every fifth trap, every fifth deadfall, and every fifth poison-bait was to be her own, and what they caught or killed was to bring a bit nearer to realization a wonderful dream that was growing in the Willow's soul. Pierrot had promised: If they had great luck that winter, they would go down to the last snows to Nelson House and buy the little old organ that was for sale there; and if the organ was sold, they would work another winter, and get a new one.

This plan gave Nepeese an enthusiastic and tireless interest in the trapline. With Pierrot it was more or less a fine bit of strategy. He would save, said his hand to give Nepeese the organ. He was determined that she should have it, whether the fifth trap and the fifth deadfall and the fifth poison-bait caught the fur or not. The partnership meant nothing so far as that was concerned. But in another way it meant to Nepeese a business interest, the thrill of personal achievement. Pierrot impressed on her that it made a comrade and co-worker of her on the trail. That was his scheme; to keep her with him when she was away from the cabin. He knew that Bush McGargart would come again to the Gray Loon, probably more than once during the winter. He had swift dogs, and it was a short journey. And when McGargart came Nepeese must not be at the cabin—alone.

Pierrot's trapline swung into the north and west covering in all a matter of fifty miles, with an average of two traps, one deadfall and a poison-bait to each mile. It was a twisting line blazed along streams for miles, often and marion, piercing the deepest forests for fisher-cat and lynx and

crossing lakes and storm-swept strips of barrens where poison-baits could be set for fox and wolf. Halfway over this line Pierrot had built a small log cabin, and at the end of it another, so that a day's work meant twenty-five miles. This was easy for Pierrot, and not hard on Nepeese after the first few days.

All through October and November they made the trips regularly, making the round every six days, which was one day of rest at the cabin on the Gray Loon and another day in the cabin at the end of the trail. To Pierrot the winter's work was business, the labor of his people for many generations back; to Nepeese and Barre it was a wild and joyous adventure that never for a day grew tiresome. Even Pierrot could not quite immunize himself against their enthusiasm. It was infectious, and he was happier than he had been since his own last set that evening the princess mother died.

One afternoon early in December, as they were returning to the Gray Loon, Pierrot stopped suddenly; a dozen paces ahead of Nepeese and Barre, at the snow. A strange snow-belt trail had joined their own, and was heading toward the cabin.

For half a minute Pierrot was silent and scarcely moved a muscle as he stared. The trail ran straight out of the north, and off there, was Lac Bala. Also they were the marks of large snowshoes, and the stride indicated was that of a tall man. Before Pierrot had spoken, Nepeese had guessed what they meant.

"Listen the Factor from Lac Bala!" she said.

Pierrot, deep in his own sombre thoughts, scarcely heard the strange laugh that came suddenly from her lips. Nepeese was listening to the growl that was spilling in Barre's throat. It was low but terrible sound. When half a mile from the cabin, she unslung the panniers from his shoulders and carried them herself. Ten minutes later they saw a mad advancing to meet them.

It was not McGargart. Pierrot recognized him, and with an audible breath of relief waved his hand. It was Delbar, who trapped in the Barren Country north of Lac Bala. Pierrot knew him well. They had exchanged traps for the better part of a year. They were friends and there was pleasure in the grip of their hands. Delbar stared then at Nepeese.

Delbar lost no time in explaining his mission, and before they reached the cabin Pierrot and Nepeese knew why he had come. "M'dieu, the Factor at Lac Bala, was leaving on a journey in five days, and he had sent Delbar as a special messenger to request Pierrot to come up to assist the clerk and the half-breed storekeeper in his absence. Pierrot made no comment at first. But he was thinking: Why had Bush McGargart sent for him? Why had he not chosen some one nearer? Not until a fire was crackling in the sheet-iron stove in the cabin, and Nepeese was busily engaged getting supper, did he voice these questions to the fox-hunter.

Delbar shrugged his shoulders. "He asked me, at first, if I could stay. But I have a wife who has had lung Pierrot. It was caught by frost last winter, and I dare not leave her long alone. He has great faith in you. Besides, you know all the traps on the Company's books at Lac Bala. So he sent for you, and begs forgiveness to every one of your families, as he will pay you double what you would catch in this time you are at the Post."

(To be continued)

CHILBLAINS!
Wash the feet with warm water and rub with Minard's. Quickly stops the pain.
MINARD'S
"KING OF PAIN"
NIME

Such is the finding of the system of renting motor cars, fostered and developed by John Hertz, the Chicago taxi-cab and motor coach manufacturer, after nearly two years of the new venture.

The rental cars bear no especially made theft-proof devices, coloring or markings, and do not differ materially in appearance from the various makes of cars manufactured for private ownership, yet in the thousands of rentals theft is very rare.

Odd Hours For Work

Inventor Finds His Brain Is Clearest Early in the Morning

Different people have different ways of working. Mr. Louis Brennan, the inventor of the Brennan torpedo and the gyroscopic monorail system of transport, wakes up regularly at about 3 a.m. He busies himself with thinking out problems, elaborating his theories, etc., for a couple of hours at the end of which time he regularly sleeps again, getting up a few hours later. From long experience, Mr. Brennan, who is now engaged in developing the principle of the helicopter, finds his brain clearer, and conditions generally more favorable for creative work, in the early morning than at any other time of the day.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat, or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well known. Every section of the country. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Too Specimens For France

Buffalo, Mountain Sheep and Mountain Goats Presented by Canadian Government

The steamer Welland County, sailing from Montreal will carry two hundred, three Rocky Mountain sheep and three Rocky Mountain goats, gifts from the Canadian Government to the National Museum of Natural History in Paris, France.

The buffalo were taken from the national herd in Buffalo National Park, Walworth, Alta., while the consignment of sheep and goats are from Rocky Mountain National Park, Banff, Alta. The shipment was consolidated at Winnipeg.

Corn Disappear when treated with Holloway's Corn Remover without leaving a scar.

Microphones Are Effective

New Innovation in British House of Lords May Cause Trouble
Installation of microphones and earphones in the British House of Lords, so that the hitherto inaudible debates may be heard, threatens to disrupt many friendships.

It has been discovered that the slightest whisper enters the microphones and can be heard by any person who happens to have his phones over his ears.

The result of this sensitiveness of the microphone today was an endless series of interjections during the speeches. Such comments as "why doesn't he shut up?" "What rot," etc., were plainly audible.

Another World's Champion
The world's champion egg embroiderer is said to live in Paris. In the Alsatian house at the Decorative Arts Exposition he has an egg embroidered with all the threads pulled through 1,000 holes. Twenty-two eggs broke, and the 23rd was mastered after 16 months' work.

Antelope in National Park
Antelope, which were threatened with extinction in Canada a few years ago, have been successfully preserved in Nelmokkan National Park. When this preserve was established in 1916, there were only 45 in the herd, the last survivors of thousands that once had roamed the prairies. There are now 225 in the herd.

RHEUMATIC PEOPLE NOW FIND RELIEF

By Driving the Poisonous Acid From the System

Rheumatism attacks people when the blood is thin and watery or charged up with impurities, thus causing inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pain, but the cause is rooted in the blood, and to get relief it must be treated through the blood. As a blood purifier and rheumatic Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the rheumatic sufferers who have proved the efficacy of this medicine is Mr. N. M. Polcy, Windsor, N.S., who says:—"My trouble started with a bad cold the result of working in a heavy rainstorm. From that it developed into rheumatism which badly crippled me, and kept me confined to bed for upwards of six months. The doctor who treated me did not help me, and every friend who called to see me had something different to advise. Some of these remedies I tried, but with no better results. My legs were stiff from the hip down, and every move I made caused intense pain, and constantly I was growing weaker. Then a friend from Portland, who came to see me, asked if I had tried Dr. Williams' Pink Pills. I had taken so much medicine without benefit that I was skeptical and said so. 'My friend,' however, had so much faith in the pills that he gave me a supply, and to please him I began taking them. I had not been taking them long when I began to feel a change for the better, and I gladly got a further supply. Soon I was able to get out of bed and walk around the house. Still taking the pills, I used in all seventeen boxes, by which time I was a well man and at work once more. I always keep a box of Dr. Williams' Pink Pills in the house and if I feel an ache or pain I take them, and always with good results. Before I would still be a bed-ridden cripple but for these pills, and I shall always praise and recommend them to my friends."

You can get these pills from any medicine dealer, or by mail at 50 cents a box, and a money-back guarantee. Dr. Williams' Medicine Co., Brockville, Ont.

They asked his father for a definition of honesty. "I will explain to you, mine son," said the parent. "Suppose you was in business and went to the bank to cash a check for \$40 and the cashier gave you \$60. Well, mine son, if you gave five of that extra ten to your partner, dot would be honesty."

She Could Never Do The Things Other Girls Did

Miss J. J. Ross, Scotland, Alta., writes:—"I am only twenty years old, and have found it very difficult to get along in the world. I have been very nervous and nervous trouble for several years."

I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work. About a year ago I began taking

MILBURN'S HEART NERVE PILLS
and am just twice the girl I was, and can enjoy everything in general life. I am much more, I am very grateful for what your pills have done for me. Get up only by The R. Milburn Co., Limited, Toronto, Ont.

PROGRESSIVES OF ALBERTA MIGHT ASSIST LIBERALS

Calgary.—Based upon which the former members from Alberta will co-operate with the Liberal Government was discussed at a conference of the newly-elected U.F.A. Federal members of parliament held in Calgary. Robert Gardiner, member for Anzac, was appointed by the gathering to present the views of the Alberta members to Premier King.

Discussing possibility of co-operating with Mr. Meighen, the members came to the conclusion that the Conservative leader's attitude on the tariff and upon western freight rates, made co-operation with his party an impossibility. As far as the Liberal stand on the tariff was concerned, they were inclined to the opinion that little could be expected in the way of immediate tariff changes.

There were three points upon which the U.F.A. members felt that they could seek to co-operate with Premier King and the Liberal party with some hope of success. These were the establishment of a system of rural credits; the introduction of the single transferable vote; and the transference of the control of "deciduous" resources to the provincial government, a move which would place the right to develop the Spray Lakes power project under the control of the Alberta Government.

An Historic Inn

Dickens Shrine in Boston About to be Demolished
Boston, Mass.—The historic Parker House, birthplace of the famous "Parker House Roll," and since 1854 one of Boston's most celebrated hotels, served its last breakfast recently. When the last guest had departed, preliminary steps were taken for the demolition of the building, to make way for a modern structure of 700 rooms.

Charles Dickens spent a winter there, and received the Dickens Fellowship in Boston paid a farewell visit to the rooms which he occupied and which have been kept since as a literary shrine.

Attempted To Smuggle Opium

Large Consignment Found When Steamer Docks at New York
New York.—Kao Zhu Hing, captain of the steamship Eastern King, was held in \$15,000 bail in Brooklyn federal court charged with attempting to smuggle into this country 221 pounds of smoking opium when the steamer docked.

The drug, which was found concealed under the sheet lead flooring of the ship's lee box, was one of the largest consignments seized from a ship here. George Oliver, chief steward of the ship, was detained as a material witness.

Canadian Nurses For China

Calgary.—Immediate steps will be taken to raise funds with which to send a delegation of Canadian nurses to the international nurses' convention to be held in China in 1926. Plans were formulated to this end at the convention of nurses attended by about 30 delegates from every section of the province.

Unearth Old Tombs In Athens

Athens.—Thirty ancient tombs have been unearthed in Athens by floods from Mount Lykabettos, at the foot of which it lies. Numerous gold ornaments and vases have been uncovered, as well as five mummies. Archaeologists are greatly interested, but are undecided what period is represented.

Object To Having Census Taken

London.—England has a difficult time determining the population in several of her colonies. Some natives believe that it is unlucky to be counted and go to great extremes to dodge the census.

Geta Rhodes Scholarship

Vancouver.—Harry Warren, aged 21, a United States student attending the University of British Columbia, has been awarded a Rhodes scholarship. It was announced by university officials.

"Three Little Maids"

New Theatrical Offering By Capt. Plunkett To Be Produced in the West

For seven seasons, over since the Dumbells' Revue began their record-breaking Canadian tour, Capt. M. W. Plunkett, the producer, has been besieged with requests for more theatrical offerings of the same high standard—particularly musical comedies. Capt. Plunkett was determined, however, that he would not add to his theatrical enterprises until he was personally convinced that his second series would be as outstanding an event as his first was.

"Three Little Maids," the London and New York musical comedy success was the choice. Its tour marks the inauguration of a new policy. "Three Little Maids" is crammed with good comedy and unusual music. Its songs are classed by critics as "The most beautiful in a generation." Capt. Plunkett has given the play a magnificent production. Scenic and lighting effects were specially designed and Capt. Plunkett has contrived to infuse into that regular speed and sparkle which is a unique characteristic of all his productions. Western dates are as follows:

Walker Theatre, Winnipeg, Tues. Dec. 1, to Sat. Dec. 5; Regina Theatre, Regina, Mon. Dec. 7, to Wed. Dec. 9; Empire Theatre, Saskatoon, Thurs. Dec. 10, to Sat. Dec. 12; Empire Theatre, Edmonton, Mon. Dec. 14, to Wed. Dec. 16; Grand Theatre, Calgary, Thurs. Dec. 17, to Sat. Dec. 19; Orpheum, Vancouver, Mon. Dec. 21 to Wed. Dec. 23; Royal Theatre, Victoria, Thurs. Dec. 24, to Sat. Dec. 26.

Half-Breeds Facing

Trial For Murder

Alleged To Have Slain Cripple On Hazelton Reserve, B.C.

Princess George, B.C.—Alexander Bird, Frank Bird and Albert Red, half-breed residents of South Port George, have been charged with the murder, September 12, last year, on the Hazelton Indian Reserve, of Matthew McLean, and probably will be placed on trial at the spring assizes here. Alexander Bird was arrested at Queneau by Provincial Constable Clarke. Bird was picked up by the police near Hazelton, and Frank Bird is serving a sentence here for drunkenness.

On the date of the alleged murder the Indians were holding a celebration on their reserve, which is said to have ended in a free-for-all fight, at the end of which McLean was missing.

Large Terminal Warehouse

Building To Be Erected On Toronto's Waterfront Will Cost \$8,000,000

Toronto.—Following negotiations between representatives of a large syndicate in which many interests are represented and the Toronto harbor commission extending over several months it was announced here that arrangements were practically completed for the erection of a water and rail terminal warehouse costing in the neighborhood of \$8,000,000 and covering between 12 and 15 acres of the harbor front to handle American and European products. The new structure will be the largest terminal warehouse on the North American continent.

Picturesque Trader Leaves Stock Exchange

Disposed of New York Seat For Record Price

New York.—His health has driven from the New York stock exchange one of the most active and picturesque floor traders, Jacob Field, known generally as "Jackie," who started on the street as a messenger boy.

In 1881 he paid \$19,000 for his seat, and he disposed of it for \$162,000, the highest price on record. He was a "free lance" trader, and a cubby hole in a broker's branch office was his headquarters.

C.N.R. Increases Revenue

Montreal.—For the month of October, 1925, net revenues of Canadian National Railways, after payment of operating expenses, were \$1,915,958, an increase of \$3,464,315 over October, 1924, and of \$2,971,311 over October, 1922.

GRAIN SHIPMENT RECORDS BROKEN FOR THE SEASON

Winnipeg.—Boat loadings at Port William and Port Arthur broke all records for the season Nov. 23, when 5,315,000 bushels of grain were shipped out from the terminal elevators. Shipments by boat from the port of Vancouver also were heavy, the exact figure being 795,230 bushels.

Vancouver elevator space is virtually filled, officials of the Canadian Pacific Railway transportation department stated with 1,500,000 bushels in stock. Marketings on the prairie continue heavy, showing a grand total of 5,697,726 on both railroads.

On the Canadian Pacific lines there were marketed on Nov. 23 in Manitoba 527,739 bushels; in Saskatchewan 1,295,234 bushels; and in Alberta 529,763 bushels, making a total of 2,347,726 bushels. A total of 1,372 cars was loaded, while 1,441 Canadian Pacific grain cars were inspected in the west.

Thousand Treaties

Registered By League

Member Nations Are Observing Clause Of Covenant

Geneva.—The number of treaties registered with the League of Nations reached 1,000 with the filing by Sweden and Norway of the documents exchanged relative to the interpretation of their arbitration convention of 1905.

Officials of the league assert all the member nations are faithfully observing the clause of the covenant which obligates them to register all treaties.

To this clause United States President Wilson attached the greatest importance as an instrument for furthering open diplomacy.

Appeal For Large Sum

Washington.—For the first time since its foundation nearly eighty years ago, the Smithsonian Institution, whose valuable contributions to science heretofore have been financed from its endowment and by special gifts, will carry an appeal direct to the people for \$10,000,000 to enable it to undertake many new major projects and to continue its publication.

Claims He Invented Tanks

London.—Claiming he originated the idea of tanks in the Great War, Captain J. F. Beasley appeared in the high court in his suit against the British Government for \$1,500,000 "compensation," which he insists is due him on account of the extensive use of his idea in the British army.

Threaten Life Of Japanese Premier

Guards Stationed At Residence In Safety Measure

Tokio.—Heavy police guards are stationed at the premier's residence, due to the recent letters threatening his life, coinciding with information in the hands of the police of assassination plans.

A fortnight ago a burglar killed and shot a school teacher and policeman, and escaped. His associate, caught by the police, confessed that the murderer, knowing that eventually he would receive the death penalty, decided to end his career in a blaze of glory by killing the premier and as many other personages as possible.

Prince Salomon, visiting Tokio, was constantly surrounded by a police guard.

Blow To Communists

Conviction Of Twelve Members Charged With Seditious Libel

London.—The trial of twelve Communist leaders which ended in the Old Bailey with sentences of imprisonment of 12 months for the five principal prisoners, against whom previous convictions had been proven, and months for the seven others, against whom no previous convictions were recorded, is the greatest blow the Communist party has yet experienced in this country.

The men, who were charged with conspiring to publish seditious libels and with violation of the Indictment to Mutiny Act, will be classed in the "second division," which means simply deprivation of their liberty.

Many Drowned In Athens.

Floods Following Torrential Rain Cause Houses To Collapse

London.—More than 100 persons are believed to have perished in the floods in Athens, following a torrential rain of an hour and 20 minutes, says a dispatch to The Daily Express. Many houses in the refugee settlement collapsed. The inmates were buried in the ruins, and many were swept away and drowned. Flood waters from Mount Lykabettos washed up 38 tombs in Anagnostopoulis Street here.

Battle With Seas

San Francisco.—The Marine Exchange of the Chamber of Commerce received a message from Honolulu saying the steamer Ryohu limped into that port yesterday after a ten-day battle with storms in mid-Pacific. The ship's bridge, chart room, and captain's cabin were badly damaged, and her steering gear crippled. The Ryohu, of 3,467 tons net, sailed from Vancouver, October 18 for Kobe.

THE OVERSEAS DOMINIONS AND LOCARNO PACT

London.—The attitude of the British dominions to the Locarno pact was a subject for lengthy debate in the House of Lords, and the trend of the speeches was that the overseas governments should support the action of Britain under the treaty that the whole moral force of the world would be behind her. Such a war obviously would be a defensive one, intended to check brutal and unnecessary aggression, and a mere feeling of patriotism and common kindly would move the dominions to sympathize with the Mother Country, but all the elements of higher morality to which the dominions were singularly alive.

Lord Balfour, of the opinion that the best way was for the British Government to inform the governments of the dominions of the conduct of the negotiations in connection with the treaty as swiftly as possible and leave them to judge for themselves.

Saskatchewan Egg Pool

May Be In Position To Start Operations Early In New Year

Regina, Sask.—The success attending the final drive for contracts in the Saskatchewan egg and poultry pool indicates that the pool will be in a position to start operations early in 1926. G. F. Edwards, chairman of the provincial board of directors, announced.

Approximately 3,000 contracts have been received to date at headquarters, and as an indication of the coming in daily. There are 240 men canvassing for contracts in various parts of the province on a commission basis, and more are appointed in the various municipalities. It is hoped that sufficient contracts will have been secured by the end of this year to enable the provincial board to take the necessary steps to have a permanent board of directors elected by the contract signers in time to start the pool operating in March, 1926.

Revolt Among Chinese Troops

Supporters of Manchurian War Lord

Fighting Each Other
Peking.—A serious revolt has occurred among the supporters of the Manchurian war lord, Marshal Chang Tso-Lin, who are fighting each other at Lianchow and Chwangtiao in Eastern China along the Peking-Mukden Railway.

The claims of the various parties, however, are conflicting.

Some quarters assert that General Kuo Ssu-Lien, Manchurian general, has captured Mukden, the capital, and imprisoned Chang, while the others assert that Chang's loyal troops have broken the railway at Chwangtiao to hinder an advance by Kuo Ssu-Lien against Mukden.

It is considered certain that the Mukden party has collapsed, at least temporarily, thus strengthening the hand of Feng Yushiang, the Christian general.

Conference To Bear Fruit

Vancouver, B.C.—The conference of boards of trade of all the larger cities of Canada, held in Winnipeg recently, is likely to prove one of the most important developments in Canadian affairs, in the opinion of D. B. Hanna, former president of the Canadian National Railways and veteran railroader and manufacturer, who is visiting at the coast. Mr. Hanna was one of the representatives of the Toronto board of trade.

Radio Guides Plane

Paris.—Captain E. L. Barnard recently flew a big air express from here to London above the clouds without once seeing the ground, being guided the whole way by radio from the Croydon airfield.

BEARS LOSE FEAR OF MAN

Black and brown bears at Jasper National Park have become so tame that they frequently seek Jasper Park Lodge grounds in search of food, and according to the report of Col. S. Mayhew Rogers, park superintendent be-

come so bold that they break into cottages and camps for food and have to be destroyed. Photographs show black and brown bears at one of the construction camps at Jasper, where they have learned to regard man as their friend rather than their enemy.

"Big Game Hunter Lauds Canadian Rockies"

Col. Philip Moore, Princeton Graduate, big game hunter, war veteran, and mountain climber, is so well known in the Canadian Pacific Rockies that, as one guide put it, "the hails a grizzly when it passes him and asks after its mistus and the cubs."

Ever since Col. Moore first visited the mountainous regions of Alberta and British Columbia, he has managed to spend part of each year hunting, camping, and climbing mountains. He returned recently from a summer sojourn in Yoho Valley, where he added a few more miles to his 2,500 mile record on horseback as a member of the Trail Riders of the Canadian Rockies.

The building of good roads through the mountains and the resultant growth in automobile traffic is a new feature which adds greatly to the interest in tourists. The opening of the Banff Windermere road, and the road on Lake Louise to Wapta, thus making a splendid highway all the way from Calgary through the Kicking

Horse pass and the valley of the Yoho, has given tourists glimpses of wonderful precipitous canyons topped by some of the most majestic ice-clad peaks in the Rockies. Then, too, the growth of the bungalow camp idea has been phenomenal this season. These where the palatial summer hotels do not attract yield to the lure of log cabins, perched on the shore of a crystal lake, and shadowed by overhanging mountain peaks. With a haversack on one's back, one may hike from camp to camp, or, if one does not scorn the saddle, ride a pony along the leafy trails.

All these pleasures Col. Moore has proved, and intends to luxuriate this winter, as he has been doing for a number of years, about the marvelous beauty of his beloved mountains. He is not selfish. He wishes others to share the joys of the "Guns trail" which has lured him into mountain fastnesses ever since he forsook the academy of Princeton.

NEW OIL-ELECTRIC CAR ON CANADIAN NATIONAL

ARRIVAL in Western Canada of the new Canadian National Railways oil-electric car on an endurance run from Montreal to Vancouver under its own power, and its subsequent return to Edmonton where it was placed in service on the Edmonton-Vernon run, replacing a mixed train service, has created much interest among railway men and the traveling public generally. The new

car, shown above, carries approximately 80 passengers, in addition to baggage and express, and made a record run to Vancouver. Other cars of similar type, and also of an articulated type, carrying 120 passengers, have been placed in service in Eastern Canada, where they are giving excellent service at reduced operating cost. More cars are now being built and others

are to be sent to the west for branch-line service. The car operates on electricity, generated by a fuel oil engine of airplane type, and the working out of this method of traction by Canadian National engineers gives promise of great reduction in fuel and operating costs. Each of these cars is capable of handling a trailer when necessary.

 - 46—Single unit.
 - 48—Twice five.
 - 50—Slance.
 - 51—Therefore.

International Livestock Exposition

Good Representation From Canada at Big Show in Chicago.

The farmers of Canada are very largely represented in competition with the best that the United States can produce at the International Livestock Exposition at Chicago. Last year Canadian exhibitors swept the boards in the hay and grain show and also won some of the most coveted blue ribbons for horses, cattle and sheep. The most outstanding victory won by Canada last year was when J. C. Mitchell, of Dahnada, Saskatchewan, won the world's wheat prize, making the third time he had scored this honor or the thirteenth time that Canada had won it in the fourteen years the competition has been held. Mitchell's prize bushel of Marquis wheat was the best in over 600 displays from all parts of the United States and Canada. He is competing this year and has hopes of winning again.

H.R.H. the Prince of Wales is entering his famous Shorthorn bull, "King of the Fairies," which was a champion ship winner at this year's Royal Winter Fair in Toronto. This bull, which is being sent from the Prince's ranch near High River, Alberta, won a fourth at Chicago last year. It has won championships in the most important livestock shows in Western Canada and has been awarded a gold medal by the British Shorthorn Breeders' Association.

At last year's International Show, Canadian grains and seeds captured 122 prizes including the world's championship for wheat and the highest awards for alfalfa seed fax, flint corn and field peas. 25 out of the 30 premiums for hard spring wheat and 21 out of 30 in oats.

As in other years one of the attractions at the show will be the Canadian Government exhibit showing the great variety of products of the farms and orchards in all parts of Canada and indicating the opportunities the Dominion offers to settlers on its fertile lands, 240,000,000 acres of which still await settlement. The International Show will be held from November 28th to December 6th inclusive.

Fervish, pale, restless and sickly children owe their condition to worms. Mother's Great Worm Exterminator will relieve them and restore health.

Farmer (using telephone for the first time)—Send me a bushel of oats. Voice Over the Wire.—Who are they for? Farmer.—Don't be funny this morn, my lad. They are for my horse.

New Pulp Mill

Construction Work Started For Manitoba Pulp and Paper Company

Work is now under way on the 550 (on pulp and paper mill being erected) by the Manitoba Pulp and Paper Company, Limited, according to Col. H. C. L. Jones, vice-president of the Spanish River Pulp and Paper Company, which is behind the venture. The mill, when completed, will be very similar to the one now owned by the latter company at Espanola, Ontario, and the construction conditions on the two sites are also alike.

Mrs. Gableigh (at the shore).—I often wonder what the wild waves are saying.
Husband.—Nothing, Maria. They are like some people I know; they make a great deal of noise but they don't say anything.

WORLD HAPPENINGS BRIEFLY TOLD

A gas mask producing its own oxygen has been invented by H. C. Carter, of Victoria, Australia. This has partially solved, at least, the problem of masks for divers and miners.

The world's largest saxophone recently made its appearance in London in a musical display. It is 25 feet high and the bell is four feet in diameter.

Basalt, a little town in the mountains of Colorado, is so prosperous, it has asked the state public utilities commission permission to provide water to its residents free of charge.

During the demolition of a very old house in a village near Bergamo, Italy, a human skull filled with antique gold and silver coins was found in a hollow wall.

Provision for the upkeep of his large string of horses until their natural death and the erection then of stones over their graves, is made in the will of the late David Shaw, millionaire horse fancier of Cleveland.

Communism can gain no footing in Britain if good houses, food and opportunities to succeed are available, declares Miss Irene Ward, political student, in an address before the Canadian Club at Toronto.

A resolution, re-affirming the stand of organized labor in the United States in favor of the principles of the world court, was passed by the executive of the American Federation of Labor at Washington.

Not Thrilled By City Life

Ekimoes Apparently Not Impressed By Sight in Montreal.
After seeing all the sights of a modern city the four young Ekimoes, seamen who joined the Jean Revillon, an Arctic fur-trading schooner, when she was brought to Liverpool, N.S., for overhauling, were apparently not thrilled.

The only modern thing man likes to which they have become partial, is tobacco, for they smoke continuously. The Ekimoes went from Montreal to Piquette, Ontario, where they will stay for the winter. It will be impossible to send the boat north before the spring, so the natives are being kept at Piquette until an opportunity occurs in the spring to take them overland to their home at Baker Lake.

Alberta Good Roads

Ambitious Road Building Programme Will Be Completed in 1927

By 1927 the Alberta Government hopes to complete its \$5,500,000 road building programme, so Hon. Alex. Ross, minister of public works, announced. By that time the province will have earned a \$1,500,000 grant from the Federal Government. Subsidies are being constructed on 2,500 miles of highway. Six hundred miles have been surfaced already and about 250 miles gravelled. Ultimately all the main highways in Alberta, leading east, west, north and south, will be gravelled.

Ontario's Honey Crop.
Ontario's crop of honey this year is of exceptionally high quality, and already 1,200,000 pounds of new honey have been moved through the co-operative association. The product of Ontario's apiaries is now finding its way into the Scandinavian countries, France, Belgium, Holland, Germany and Switzerland.

Stop that cold with Minaid's Liniment

Sweden Had Unusual Summer

Average Temperature Was High With An Abundant Rainfall.
The official daily weather records, which in Sweden go back two hundred years, reveal for the past season a number of astonishing facts. On several occasions this summer, Sweden has been warmer than Egypt; and the average temperature for July was higher in Stockholm than in Paris. The rainfall was also three times more abundant than usual and yet the number of hours with sunshine came close to the record, held by 1914. The Swedish crop has been remarkably abundant this year and the weather conditions for the harvest favorable.

Created Canadian Record

Pen of White Leghorns at Langley, B.C., Wins Egg-Laying Contest.
With a grand total of 2,583 eggs, the pen of White Leghorns owned by J. H. Mufford, Langley, has won the fifth egg-laying contest at the Dominion experimental farm, Agassiz, B.C. The pen has not only created a Canadian record but probably a world record under official test, according to W. H. Hicks, superintendent of the station. The hens of the winning pen of ten birds have an average of 265 eggs each.

Mr. Val Kulak leaves next week on a trip to the coast where he purposes spending the winter.

Sec-treas Pigeon will be in Stony next Saturday, Dec. 12, to collect taxes for the Ings M. D.

The annual Christmas Concert of the Holborn school pupils will be held this year on Tuesday, Dec. 22 at Holborn Hall. A dance will follow the entertainment, the music will be provided by Barths Orchestra.

The play, "The Voice of Authority" will be played in Holborn Hall on Friday, Dec. 11 by the local Girls Club. A dance will follow with Barths Orchestra furnishing the music.

Fire broke out on Friday morning in the garage of Mr. P. W. Trautman at Golden Spike and his blacksmith shop and garage in which was his big Maxwell car was a complete loss.

Quite a little excitement was caused on Main street on Saturday, when four trusty dobbins hooked to a grain sleigh found themselves untended while the owner was getting his grain cheque and made a dash up the street full steam ahead. But when they reached the pool room about a score of men who had been having a "sittin' lath" in front of the building ran out to intercept them which they succeeded in doing after much waving of arms ably assisted by their vocal organs.

Big game and trappers licenses on sale at the Sun office.

JUDICIAL SALE OF FARM PROPERTY.

There will be offered for sale by Public Auction by Cecil W. McKenna Auctioneer, at the Post Office, in the Town of Stony Plain, in the Province of Alberta, on Saturday the 20th day of December 1925 at 2:30 O'clock in the afternoon the following lands: S. E. 1 Sec. 10 Tp. 52 R. 27 W. 4th M. 100 acres more or less, reserving Mines and Minerals.

The property is offered subject to a Reserve bid. The Vendor is informed of the following particulars: The property is situated about 4 miles south west of Spruce Grove and about 24 miles from nearest school; that about 80 acres have been cultivated, and buildings on same are Log House 30x20-16x18; Log Barn 28x34, Frame Granary 30x34, Frame and Log hen house 16x20; there is a good well and land is fenced all around with 8 strands barbed wire.

The terms of payment are as follows: The purchaser will pay down at the time of sale 10 per cent of the purchase price to the Vendor's solicitor and the balance due Court within sixty days from the date of sale with out interest. The purchaser may obtain a loan of \$2000.00 on property. In other respects the terms and conditions of sale will be standing conditions of sale of the Supreme Court of Alberta, as approved by the Master.

For further particulars apply to P. W. Leamy, Barrister, Stony Plain, Alberta.

Dated at Edmonton this 20th day of November, 1925.

Approved A. Y. B. "H. P. Wallace" M. C. C. C.

- 11-Play, "Voice of Authority" at Holborn Hall. Dance after.
- 12-Sec-treas Pigeon in Stony to collect taxes.
- 18-Dance, Duchak's Hall.
- 22-Xmas Concert and dance at Holborn Hall.

Eggs from B. C.

So few fresh laid eggs are coming on the market that their effect is negligible, the trade being supplied almost entirely by storage stocks which are reported to be very good.

Shipments of B. C. fresh eggs have been coming into the province and have found ready market. This is giving B. C. poultrymen hope of finding a steady market here for their eggs where good prices are available. In recent years Alberta eggs were shipped to B. C. but this year the local chicken doesn't seem overly desirous to supply the demand for her valuables.

Cost of This Year's Wheat.

The cost of producing wheat throughout the three prairie provinces in 1925 has been approximately 95c per bushel. This calculation was made by the government. Experimental farm and has been based on the estimated average yield of 17 bushels per acre and upon what are regarded to be the prevailing rates of wages, interest, taxes, machinery, seed, twine and bail insurance. Where the yields have been larger or where costs, for any reason, have been below the average, then the cost of producing wheat would be less than 95c per bushel. In fact, each individual farmer would have a different cost depending upon how favorable the season had been in his particular locality and upon the efficiency of his farming.

Provincial Seed Fair.

The Alberta Provincial Seed Fair will be held in Calgary in January, during the period of the convention of the United Farmers, the dates of which are January 19, 20, 21 and 22. It is expected that there will be a good competition again this year in all classes. Prize lists for the seed fair will be available within a few days, and may be obtained from the field crops branch of the Department of Agriculture.

FURS AND OVERCOATS

Here and There

Major-General Sir Fabian Ware, vice-chairman of the Imperial War Graves Commission, who has been visiting in Canada during October, has been recalled to England much earlier than he expected. Prior to sailing on the Canadian Pacific liner, Montclair, from Montreal, he expressed the hope that he would be able to come to Canada again next spring so that he could give Canadians in the West some idea of what the Imperial Commission is doing in caring for the graves of western youths who perished during the war.

Robert L. Rice, Jr., of Boston, and J. Y. Cole, of Harvard, took big chances when they attempted to travel by canoe from Regya to Angliers at the end of October. Although they started in beautiful Indian summer weather they ran within a few hours into a bad storm which filled their canoe with half melted snow and almost froze them into unconsciousness. Fortunately they arrived in the nick of time at a fire-ranger's hut where they stayed a few days until the storm abated. They were prospecting in the neighborhood and were none the worse for their perilous trip when they finally reached Montreal.

Bob Shawkey, New York Yankee veteran pitcher, who organized the party of major league baseball players now having a big game in New Brunswick, shot a moose with arrows spreading 50 inches and having 28 points, according to word received at Fredericton, N.B. Shawkey shot his moose the first day the party spent in the woods. This information is conveyed by another party of hunters who passed the camp of the ball players at Nepisigui Lake. In the group are some of the best known players in the American League: Eddie Collins, Babe Ruth and Muddy Ruel being among them.

The romance of a world cruise culminated in New York City recently when Dorothy Holmes O'Ryan, daughter of Major-General and Mrs. John F. O'Ryan, of New York, married Darwin Curtis, of Chicago. The couple met for the first time a year ago on board the Canadian Pacific liner, Empress of France which was then making a tour of the world. It is feared they had no eyes for the world marvels which were unfolded before them on the tour, since it is stated they fell in love at first sight and could only see each other. The marriage was performed by Rev. Bishop Francis P. Duffy, chaplain of the "Fighting Sixty-ninth," a regiment commanded by the bride's father during the war.

Good reading for Canadian Pacific shareholders is furnished in the September statement of gross earnings, working expenses and net profits. It has been the most favorable month for the company in a long time. The gross earnings were \$18,509,071, the greatest shown in any month since October, 1924. Operating expenses were \$12,641,459 and the difference between the two, the net profits \$6,267,619, an increase of \$1,719,978 over the corresponding month of last year. Net earnings for the first three quarters of this year, ending September 30th, is \$1,190,038 greater than the 1924 figures, despite a decrease in gross earnings of over four and a half million dollars. This is made possible by the company's policy of rigid economy.

To bring the Arctic within the scope of tourist traffic is the object of the Marquis M. de Aguiar, a minor sports director, Lord Play-aid, who is organizing pack horse trips of thirty days' duration next year from the Canadian Pacific Rockies as far north as the Columbia Ice Fields within the Arctic Circle. "We are going to swim our horses, and outfit across the Star Katchewan River and camp near the sources of the Athabasca which empties into Great Slave Lake and thence into the Arctic," the Marquis asserts. The first of these trips is scheduled between June 26 and July 27 next year.
